

The TCS New York City Marathon is the premier event of New York Road Runners (NYRR) and historically has been the largest marathon in the world. Held annually on the first Sunday in November, the race features the world's top professional athletes and a vast range of competitive, recreational, and charity runners.

The race began in 1970 with just 127 entrants running four laps around Central Park, and expanded citywide in 1976. Each year, runners tour New York City's five boroughs, starting on Staten Island at the foot of the Verrazzano-Narrows Bridge, and running through the neighborhoods of Brooklyn, Queens, and the Bronx, before ending in Manhattan at the iconic Central Park finish line.

The marathon celebrated its 50th running in 2021, and returned to full capacity in 2022 with nearly 50,000 finishers. Tata Consultancy Services (TCS), a leading global IT services, consulting, and business solutions organization, is the premier partner of NYRR and the title sponsor of the TCS New York City Marathon.
